HAITI HELP

This news report is about the terrible disaster that has occurred in Haiti and how Bransgore School has decided to help.

The news reports told us that 'funds' were needed, funds for water, funds for food, funds for blankets, for houses - for everything we have.

We are children and we can't fix the world, but we can raise some funds, in our own way- and every little bit helps.

Our school has managed to raise £1693.00 to go towards rebuilding homes and lives of the people of Haiti.

We could not have achieved this without the support of the teachers and parents, and the hard work of the children of Bransgore - thank you. Some gave up their lunch breaks to make and design things to sell, almost everybody brought in a donation towards Mufti day, lots of stalls on the day raised money - anything we could think of.

However, most importantly, everybody stopped to think about what happened. Everybody thought about how they, in their own 'little' way, could help. Everybody stopped to appreciate what they have and maybe sometimes take for granted.

Everybody wishes they could do more.

E. Fletcher,

G.Taylor,

S.Hines
