

MP/LL 04.05.17

Dear Parents/Carers,

Please find below a letter from our Eco Council.

Polli:Nation Project at Bransgore Primary School

The Eco Council children at Bransgore are involved in an exciting project to plant native wild flowers and herbs in a designated area in the playing field.

Polli:Nation is a Heritage Lottery funded biodiversity and education project to engage and enthuse children to protect pollinating insect species in the UK.

As part of the grant, the children will 'transform' the area on a specific day: May 25th. Prior to this, we need to prepare the ground for planting. **Please can some Mums or Dads help us over any of the next three Fridays (5th, 12th and 19th), from 1pm–3pm to prepare the land.** Please bring forks and trowels. Any help would be so very welcome.

Thank you in advance,

Mandy (Arun Curson's mum)
