Sailors' Society

Dear Parents/Carers,

You may remember that last year we supported the Sailors' Society by allowing them to make a promotional video in our school which highlighted the differences between the way our children come to school and the way children in parts of the Phillipines need to swim across 2km of estuary to get to school.

You can see the video here:

<https://www.sailors-society.org/our-stories/the-worlds-wettest-school-run/>

Tomorrow, 11th January, a representative from the Sailors Society is going to visit school to lead an assembly about the help that The Society have given to these children by providing a couple of small motorised boats meaning the children can now get to school safe and dry!

We have been asked if we can support the charity by making a donation. If you would be happy to do this then please could your child bring in a coin tomorrow to add to the "Wettest School Run" map which will be shown to the children as part of the assembly.

As always, thanks so much for your kindness and support in our efforts to help others.

Best wishes,

Mr. Brown.

Society funds new boats to get pupils safely to school

Children in the Phillipines no longer have to swim to school thanks to the Society.
